

Alcohol Bibliography Series
An Information Service of the Center of Alcohol Studies
Rutgers University

The Center of Alcohol Studies Bibliographies are extensive lists of references to the international scientific literature on specific alcohol subjects. Journal articles, books, technical reports, dissertations and conference proceedings are covered. Cited items are limited to the English language. Most lists include all documents in the Center's information system collected since 1988 on a particular topic; each contains bibliographic references arranged alphabetically by author. The bibliographies will be updated annually, and updates will be available separately for persons who already have bibliographies. For subjects where material was collected prior to 1988, retrospective bibliographies are available.

Bibliographies may be purchased for a fee of \$20 each plus postage (or \$2.50 each for updates only), and the complete series for \$995 (including postage). Retrospective bibliographies containing citations collected prior to 1987 are available for \$7.00 (postage included) for those topics marked with **. Please indicate topics by circling the appropriate number(s), detach and mail to: Library, Rutgers Center of Alcohol Studies, 607 Allison Road, Piscataway, NJ 08854-8001. Make checks payable to : **Center of Alcohol Studies**. [All fees subject to change]
