LABORATORY OF APPLIED PHYSIOLOGY

Director: HOWARD W. HAGGARD, M.D.

SUMMER SCHOOL OF ALCOHOL STUDIES

Director: E. M. JELLINEK, Sc.D.

The Yale Summer School of Alcohol Studies will hold two sessions in 1949.

1. The *Western Session* will be held in San Antonio, Texas, on the campus of Trinity University, from June 6th to June 29th.

2. The *Eastern Session* will be held in New Haven, Connecticut, at Yale University, from July 8th to August 5th.

Although the Western Session will be shorter in duration than the Eastern, there will be no difference in the number of lectures at the two sessions. Furthermore, fully two-thirds of the lectures will be covered by the same lecturers at both sessions. As the two curricula will be equivalent, the geographic limitation of the enrollment in the two sessions, as stated below, will not impose any disadvantage upon students at either session.

The *Western Session* at San Antonio, Texas, will be open to applicants from states west of the Mississippi except Minnesota and Iowa.

The *Eastern Session* at New Haven, Connecticut, will be open to applicants from states east of the Mississippi and from Minnesota and Iowa. Exceptions to this rule will be made on duly motivated requests.

ALL CORRESPONDENCE CONCERNING THE SUMMER SCHOOL, WHETHER THE EASTERN OR THE WESTERN SESSION, MUST BE ADDRESSED TO:

Summer School of Alcohol Studies
LABORATORY OF APPLIED PHYSIOLOGY
YALE UNIVERSITY
52 Hillhouse Avenue, New Haven, Connecticut

The object of the summer sessions is to make the most recent findings of scientific research available for application to the problems of alcohol in the community. The educational program of lectures and seminars is designed for the needs of men and women engaged in professions or activities in which a thorough

knowledge of the facts about alcohol problems will be of particular usefulness. Details of the courses offered and the type of students sought are outlined further below.

Each year since 1943 has seen changes in the curriculum of the Summer School, but the basic principle of giving a broad view of the problems of alcohol has been maintained throughout. In 1947 for the first time the curriculum was devised so as to comply in some degree with specific professional interests. The lectures of the first half of the session serve to furnish an indispensable common background for all interests, while the balance of the curriculum is divided for special groups. The faculty of the School believes that any special activity related to the problems of alcohol will be effective only if carried out with a full realization of the complexities of these problems. There are biological, sociological, historical, psychological, religious and economic aspects which must be understood by all students of alcoholism, whether their primary interests are in the field of medicine, psychiatry, social work, penology, legal control, education or pastoral work. None of these activities can stand by itself; each must be integrated within the total activities around the problems of alcohol.

In the second half of the course at each session two curricula are offered in order to take account of special professional interests. Curriculum *A* is devised for educators and those interested in legal controls and related subjects. Curriculum *B* serves physicians, social workers and others interested primarily in the care and treatment of alcoholics. A few lectures in the second part will, nevertheless, be common to all students in order that they may appreciate each other's services and activities.

In addition to the lectures the Summer School will include a number of professional seminars. Seminar groups for physicians and social workers will provide opportunity for the discussion of clinical problems.

There will be a "workshop" for educators, and the ministers will form a special seminar. A sociological seminar will be conducted by students who are interested mainly in the re-

lations of the problems of alcohol to the community. In addition there will be a research seminar for the discussion of contemplated projects.

ADMISSION

Qualifications. Teachers and school administrators, physicians, psychologists, clergymen and denominational workers, welfare workers, probation officers and other men and women engaged professionally in activities in which a knowledge of the problems of alcohol would be of advantage will be considered as qualified for admission. All others desiring to enroll will be required to have a college education or equivalent experience.

Application for General Admission. Application for general admission must be made on the official application form.

All candidates *except* clergymen and denominational workers should write for an application blank to:

Summer School of Alcohol Studies
LABORATORY OF APPLIED PHYSIOLOGY
YALE UNIVERSITY

52 Hillhouse Avenue, New Haven, Connecticut

Clergymen and religious workers of all denominations should write for an application blank to:

Department of Pastoral Services
Federal Council of Churches
297 Fourth Avenue, New York 10, New York

Applications for Scholarships. Candidates for admission who wish to apply for a scholarship grant should read the instructions and terms under the headings *Scholarships* on page 6.

Closing Dates for Applications. Applications for the *Western Session* must be submitted not later than April 1, 1949. Applications for the *Eastern Session* must be submitted not later than April 15, 1949. It is advisable to submit applications as early as possible.

Notification of Admission. All applications will be reviewed by a committee on admissions. Notifications of the committee's decision will be mailed to applicants for the *Western Session* in the third week of April, and to applicants for

the *Eastern Session* in the first week of May. Assurance of admission cannot be given before that time.

FEES AND SCHOLARSHIPS

There will be two categories of fees and several categories of scholarships. The fees and scholarship grants are the same for the Eastern and Western Sessions.

Category I. Ministers, physicians, social and welfare workers, probation and parole officers, teachers (elementary, high school and college) and other staff members of schools, graduate students, registered nurses and all federal, state and municipal employees not mentioned above, will pay a total fee of \$210 (including room, board and registration) for the entire course. Advancing maintenance costs necessarily necessitate a slight upward adjustment of this fee. If such adjustment should become necessary, applicants will be advised at the time that notifications of admission are mailed. The entire fee or one half of it (except the registration fee of \$10) may be remitted as a scholarship grant, of which a limited number are available.

Category II. Students not mentioned in *Category I* will be required to pay a total fee of \$410 (including room, board and registration) for the entire course. Students in *Category II* may apply for scholarship grants ranging from \$100 to \$400. Scholarships in this category, especially full scholarships, will be few in number. There is no exemption from the registration fee of \$10.

APPLICATIONS FOR SCHOLARSHIPS

The scholarships of either class are awarded by the Summer School of Alcohol Studies. Applications for scholarships, however, should be addressed in accordance with the following instructions:

a. Members of the teaching profession and school administrators should write to the National Education Association, 1201 Sixteenth Street, N.W., Washington, D.C.

b. Clergymen and religious workers of all denominations should write to the Department of Pastoral Services, Federal Council of Churches, 297 Fourth Avenue, New York 10, New York.

c. Members of other professions, welfare workers, public officials and all others who wish to apply for a scholarship should write to the Executive Secretary, Summer School of Alcohol Studies, Laboratory of Applied Physiology, Yale University, New Haven, Connecticut.

The School is desirous of extending the educational opportunity of the summer session to as many qualified candidates as possible. If the organization that sponsors a candidate, or the individual applicant, can afford to pay part of the expense, they are urged to apply only for a Part-Scholarship in order to make possible the extension of aid from the funds available for scholarships to a greater number of candidates.

ACCOMMODATIONS

Western Session. Accepted students will be housed in dormitories of Trinity University, and rooms will be reserved for them unless they notify the Executive Secretary of the Summer School of Alcohol Studies (in New Haven) that they do not require dormitory accommodations. Blankets, bed linens, pillows and towels will be supplied. No arrangements can be made to accommodate married couples in the same dormitory. Meals will be served in University dining halls six days weekly (excluding Sunday). Paying students and students on part-scholarships who elect to room outside or have their meals outside will be granted remittances covering the cost of dormitory facilities or dining hall charges. Students who desire to live outside should notify the Executive Secretary not later than the first week of May. The administration will assist in making arrangements for outside rooms in the vicinity of Trinity University.

Eastern Session. Accepted students will be housed in dormitories of Yale University and rooms will be reserved for them unless they notify the Executive Secretary of the Summer School of Alcohol Studies that they do not require dormitory accommodations. Blankets, bed linens, pillows and towels will be supplied. No arrangements can be made to accommodate married couples in the same dormitory. Meals will be served in University dining halls six

days weekly (excluding Sunday). Paying students and students on part-scholarships who elect to room outside or have their meals outside will be granted remittances covering the cost of dormitory facilities or dining hall charges. Students who desire to live outside should note that the administration cannot assist in locating quarters outside the University. Students who wish to secure quarters outside the University are advised to make their arrangements well in advance, as furnished rooms are scarce in New Haven.

REGISTRATION AND SESSIONS

Western Session. Registration will take place on Monday, June 6, and Tuesday, June 7, 1949, in the Administration Building of Trinity University, San Antonio, Texas.

The first lecture will be held on Wednesday, June 8, and the last lecture on Wednesday, June 29.

Eastern Session. Registration will take place on Friday, July 8, Saturday, July 9, and Sunday, July 10, 1949, at Yale University. (Location of office will be designated later.)

The first lecture will be held on Monday, July 11, and the last lecture on Friday, August 5.

Accepted students will receive a memorandum on the details of registration and sessions.

CERTIFICATION

Certificates of attendance for the Western as well as the Eastern session will be issued by Yale University upon completion of the entire course.
